Ethiopian Public Health Institute, Addis Ababa, Ethiopia

To: Project HOPE,

Subject: Application for Emergency Preparedness and Response Coordinator

Do you need a real changemaker of public health emergency management? I possess an unwavering commitment to excellence. I am highly inspired to apply for **Emergency Preparedness and Response Coordinator** and I hope you find my application in good grace. I am enthusiastic and committed **Field Epidemiologist** with over 10 years resourceful experience in public health emergency preparedness, early warning/surveillance, and response in Ethiopia. I am dedicated to strengthen PHEM systems for early detection and response through innovation strategic approach efforts and data driven evidence generation for decision.

Currently, I am working as Senior Public Health Emergency Operation Center Expert, Ethiopian Public Health Institute, working on measle, cholera, Mpox, Marburg virus disease, malaria and other public health outbreak response in Ethiopia. I published eighteen (18) researches (including outbreaks investigation, surveillance system evaluation, Exploring PHEOC experiences in Ethiopia from 2017-2023, etc.) on international peer review journals.

I have functional skill of strategic thinking, time-management skills, achieve desired results and the ability to build teamwork, communicating and influencing, developing self and others. I have knowledge of basic computer skills Microsoft Office and statistical software (SPSS, Epi-info and Arci-GIS), health digital tools (DHIS2), data collection tools (ODK, KOBO etc).

Generally, I hope my qualification and demonstrated experiences in public health emergency management might make me a good fit to the position of PHEM Specialist. Please take your time to review my CV to get an in-depth view of my qualifications and experiences. I am available via +251-923-72-88-03 or at email direhasen@gmail.com,

Thank you in advance.

Faithfully yours

Mohammed Hasen
